LAKE STEAMERS ON FIRE.

Unknown Vessels Burned to the Water's Edge Off Toledo-Tug Boats Sent to the Relief.

Tolebo, O., Sept. 20. -Two large steamers anchored on Lake Erie, about three miles from land, were a mass of flames at 2 a. m. Tuesday. They have been blowing distress signals for half an hour and are apparently burning to the water's edge. As they have not cleared from port their names or number of crews can not be ascertained. The watchman at the nearest point reports that the boats were Toledo-bound and are doubtless large freight barge and consort. They have burned to the water's edge. A relief party has been sent out from the city and fast tugs equipped for an emergency. Several hours will elapse before definite news can be obtained.

The Order is in Accordance With the General Plan of the War Department Regarding a Garrison of 20,000 Men for the Philippines.

WASHINGTON, Sept. 20. - Five regiments now at San Francisco bave ments for their transportation will be made at once.

The regiments ordered are the following: Thirty-first Iowa, 20th Kansas, 1st Tennessee, 1st Washington and a detachment of the 2d Oregon.

It was stated at the war department

that no exigency had arisen which made it necessary to send the troops now at San Francisco to Manila, but the order issued Monday was in accordance with the general plan of the department regarding a garrison for the Philippines. That plan of garrison duty included 20,000 men for the Philippines, 12,500 for Porto Rico, and 60,000 for Cuba. The troops to be sent to Manila under Monday's order will fill the complement for that station. Troops would have been sent before, it was said, except that the department was awaiting the return of transports. Honolulu will accompany those to be embarked at San Francisco, but that

v of 40,000 to Be Sent for the Purpos of Garrisoning Cuban Towns-Half of Them Will Be Volunteers.

WASHINGTON, Sept. 20.-The organizations which are to comprise the Cuban garrison have not all been designated yet but it is assured that at least half of them will be volun-

Within two weeks orders will be issued for the movement to Cuba of the first 10,000 of the permanent garrison and it is the expectation now that they will sail from the United States about October 10. These troops will be followed quickly by others, until the entire force of 40,000 has been established on the island.

It is not the intention of the administration to await the evacuation of the island by the Spanish forces, before sending United States troops to Cuba, as the indications now are that it may be several months before the Cuban commissioners complete their work. Quite naturally, a considerable number of Spanish troops will remain on the island until the arrangements for the relinquishment of Spanish sovereignty over it formally have been concluded.

The rainy season in Cuba is nearly at an end and the most delightful season of the year on the island is about to begin. During the late fall and winter months the climate in Cuba is not only enjoyable, but healthful and with such care as' will be taken for the health and comfort of the American forces to be stationed in Cuba officials of the war department have no fear that serious illness among the men will follow the occupation of

P. E. Butler, of pack-train No 3. writing from Santiago, De Cuba, on July 23d, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rnsh night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we are able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had not been able to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had Wm. Fields was up from Lin- the good fortune to lay in a supply of this medicine for our T. J. A CHICKAMALGA RYME.

The Twenty-first Kansas Dear Ellis friends, I'll undertake The very pleasant work Of describing the Kansas Regiment In Chickamauga lark.

First I'll name the officers, The Colonel and his staff, And when I have a chance I'll Speak a word in their behalf.

Our Colonel's name is Thos Fitch; He is a soldier true: One who'd give his very life For the red, white and blue.

Then Chas Crum-a warrior brave, Is our lieutenant colonel, He comes to send the Spaniards To their destiny eternal.

And Harry Smith, a West Point Boy," is major number one; He is a true born soldier And inferior to none

The boys say he is cranky,

And I will tell you why,

When Harry gives an order The boys must all comply. He is handsome, well built man, Very straight and tall, And his fine soldierly bearing

We have another major To make the boys stand 'round, He, also, is a worthy man, His name is Willis Brown.

Commands the respect of all.

Our adjutant, Henry Parker, Is a very pleasant man, Who understands his business And understands it well.

Fred Turner and Tom Biddle, Are our assistant surgeons' names, They're very able surgeons And worthy of their fame.

And the chaplain Wm Woodward Is a true child of the Lord, And rejoices in expounding His great and glorious word.

And now the company officers, The captain is Roy Marr. As good as any in the field, And a better one by far,

Than many I change to meet And we are proud of him, . We all admire his bearing, His courage and his vim.

And First Lieutenant Lester, Is another able man, One who to help the boys along, Does everything he can.

And little C. N. Hamilton Is a brave young man and true; He seems well fitted forthe place He's lieutenant number two.

Arthur Boyd is first sergeant, He is a Russell bird; Bascom, of Ellis is And Geo. Gebhart is third. The fourth is C. L. Hamilton

Who drilled the new recruit, The fifth is F. A. Schwaller Firm and resolute.

Fred Paul and H. H. Jones, Levick, Coffey and Brenner, Miller, Pearl and Mines.

Friends, I shall not take the time The privates now to name, But the privates, I will tell you, Are down here just the same.

We have to do the work you know And have to do it well.

For if we fail to do our best The corporals will run and tell. The boys are in good spirits

And ready for a fight. They think of fighting every day And dream of it at night They want to go to Cuba

And go there right away, They would all be glad To leave this Park to-day.

And I am with the rest of them Of course, I'd like to go, Not to fight the Spaniards, But to "sail the deep" you know.

And when the war is over We boys will all come home, And am sure you'll be surprised To see us when we come.

We'll wear our navy blue shirts IN BRICK HOTEL Also our army shoes, We'll all be carrying knapsacks, And all be dressed in blue

And each kind, loving mother Will embrace her soldier boy, And each dear, patientsweatheart Will meet her beau with joy

ROOSTER SOLD AT \$1,000.

Texas Bird That Was Winner of

Burleson county, Tex., for \$1,000. Don San Diego Montemayo, a sportsman and chicken fancier of Monterey, Mexico, became the purchaser. The money was paid in gold, and while it was being counted out the victorious young rooster crowed lustily. His spurs were bloody from his recent victory and his feathers a little ruffled, but otherwise he looked as fresh as the proverbia! spring chicken.

During the successful campaign which the game young Commodore has just completed he was entered in 27 mains and was the victor in every one. It is said that this bird has won more than \$5,000 for his owner during his short career. He has fought his last battle, for, according to the terms of the bill of sale which the vendor gave to Senor Montemayo, the great bird is to be used as a breeder, the purchaser obligating himself never to fight the celebrated gamegock again.

This is believed to be the highest price ever paid for a rooster in Texas, but the price would not be regarded as startling in old Mexico, where vic-torious roosters have often been ex-changed for heres of cattle, ranches

and silver mines. Atahualpa was the original pet name of this wonderful bird, and when he crowed he seemed to say it as plainly as ever a feathered youngster pronounced his own name. His trainer made him stand still in a gladiator attitude while the camera was turned on him, and when the snap shot was finished he seemed to understand that he was expected to crow, and then his admirers, all of whom were jingling Wainwright gold in their pockets, gave him a rousing farewell cheer.

Queer Streets of Manila.

The streets of Manila are so modern as to be quite out of keeping with the general appearance of the town. They are perfectly straight, macadamized, and provided with ample granite walks. Of these the Esconta and the Rosario are the best. In both these are excellent shops, kept principally by Chinese merchants, most of whom come from Amoy. Tin-roofed houses line each side of both thoroughfares.

"I had been a sufferer of rheumatism for a number of years and the pain at times was very intense. I tried all the proprietary medicines I knew of but received no relief.

"I fianlly placed my case with several physicians and doctored with them for some time, but they failed to do me any good. Finally, with my hopes of relief nearly exhausted I read an article regarding Dr. Williams' Pink Pills for Pale People, which induced me to try them. I was anxious to get rid of the terrible disease and bought two boxes of the pills. I began using them about March, 1897. After I had taken two boxes I was completely cured, and the pain has never returned. I think it is the best medicine I have ever taken, and am willing at any time to sign my name to any testimony setting forth its good merits."

Improvements in Flying Machines. Inventors are plenty who can make a machine that will rise and float in air, but the one improvement which none has succeeded in making is an apparatus that will guide the machine through the many treacherous currents of air. In this respect humanity is fortunate in having Hostetter's Stomach Bitters, which acts as a safe guide by curing treacherous stomach, liver and blood diseases, giving a good appetite, a strong constitution and nerves like steel.

The War Is Over

And now our thoughts are all of peace and home. There are, too often, people to be found who have no home, and it is to them these few words are addressed. If you really want a home you can easily get one, but you should act at once before the relapse from the war puts prices on the advance. In Marinette County, Wisconsin, the very finest farming land is to be had now at a most modest figure. Excellent home markets are at hand to take whatever the farmer raises, and good prices are given. These lands are on the Chicago, Milwaukee & St. Paul Railway, and full information concerning them will cheerfully be furnished by C. E. Rollins, Immigration Agent, 161 La Salle Street, Chicago.

HERO HAD HIS TROUBLES.

Woman's Care and Kindness Makes Him Think of Caba with Longing.

"War is pretty bad, of course," remarked a blue-coated man with a bandage under his coat, "but I declare, in some ways, women are as bad as Spaniards—only they kill you with kindness instead of bullets. I came home from Santiago with this little wound in my hip, and, really, I can't tell you how I've suffered since, from the women of my family. It is all right, of course; this world would be a den of wild beasts without the love and sympathy of woman—but the dear creatures—especially those nearest to us—generally overdo it. They didn't believe my message that I was only slightly wounded, so on my arrival I was met by my wife, her mother, two maiden aunts and a girl cousin, all rallied from the four quarters of Michigan and adjoining states to nurse me. I don't need any nursing worth mentioning, but, believe me, if I've drawn a long breath in two weeks without those five women jumping up and rushing at me. I will eat my army blanket. If I wink my wife says: "What is it, dear?—if I move one leg, my girl cousin springs at me with another pillow in her hand; during the night my two aunts wake me up to see if I want anything; and my mother-in-law—well, the dear soul hasn't sat down or been to bed since I came—to my knowledge. My wound is nearly healed, and that's a blessing, for if I don't get back to Cuba pretty soon I'll be a ruined man. I can't stand such coddling—it will make a bloated tyrant out of me, so it will. A man needs war once in awhile to get him away from woman—dear, loving woman—she would make a spineless infant out of him in no time."—Detroit Free Press.

He Didn't Know About Hairpins.

"By Jove!" exclaimed the bridegroom, as he sat down and tugged away at his mustache, "this is too bad!"

They had just arrived at Niagara Falls, and the porter had bowed himself out after carrying up a trunk that weighed 487 pounds, for which he received a 50-cent "tip."

The frightened girl dropped her traveling hat upon the center table and stood as if transfixed, with one of her gloves half off.

"What is it, Harry?" she asked.

"This is a fine go," he muttered. "I won der how in the world I ever came to do such a foolish thing."

Then he felt in his pockets again, and cast a helpless look at the big trunk.

"You—you haven't lost your pocketbook, have you?" she asked.

"No, darling," he answered, "but I left my keys at home, and the one that opens your trunk is among them."
